DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Beckers on 8/19/2005.

The application has been amended as follows:

Claims 11-13 have been canceled.

Allowable Subject Matter

Claims 1-6, 8-10, 14-17 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claims 1, 10, 14, 15, and 16 the prior art of record taken along or in combination, fails to disclose or render obvious polarimeter having a plurality of optical components to measure intensity signals, the plurality of the optical components are configured in such way that a Poincare sphere is fully covered by the intensity signals and said distortion analyzer produces the feedback signal by calculating the intensity signals, in combination with the rest of the limitations of the claims, respectively.

As to Claim 17, the prior art of record taken along or in combination, fails to disclose or render obvious the polarimeter including a plurality of optical components forming four

analyzers to produce four intensity signals, and the optical components are arranged that equivalent analyzer polarizations of the four analyzers form a structure like atoms in a diamond on a Poincare sphere, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
